INTRO:

VERSE 1:

You lied you belied you denied all the things that went wrong
Spin and deceive you refused to believe all the bad things you've done

CHORUS 1:

The farmers were on their knees,
The moment you had to seize
You just played your dirty game

VERSE 2:

You lied you belied you denied all the things that went wrong
Spin and deceive you refused to believe all the bad things you've done

CHORUS 2:

The kids are sick, they're standing at the gate
You turned away but then you help your mate
You just played your dirty game, Politics and Money and Fame

BRIDGE:

Blinded by your treachery
Power and money in your sights
You couldn't see all the misery
Or the people who can't sleep tonight

SOLO:

VERSE 3:

You lied you belied you denied all the things that went wrong
Spin and deceive you refused to believe all the bad things you've done

CHORUS 3:

The farmers were on their knees,
The moment you had to seize
You just played your dirty game, Politics and Money and Fame

OUTRO:

You lied you belied you denied all the things that went wrong
Spin and deceive you refused to believe all the bad things you've done
