INTRO:

VERSE 1:

Voices...rising... splashing all over my skin
Conscience... grinding... sinking deep and deeper within
You know what we have to do.... to make it all right

We're sorry.... you matter say leaders poets and kings
Nail your colours to the mast and We'll make it all right
Step aside let someone through Unlearn rewrite

CHORUS 1:

We're finding out just who we are Let's give a damn Australia

VERSE 2:

Shifting.... drifting...hear the drums in the street, hear the roar
Call it... own it.....and don't look away anymore
You know what we have to do.... to make it all right

CHORUS 2:

We're finding out just who we are Let's give a damn Australia
